Step 4 of the Governments Roadmap out of Lockdown – England will move to the final stage of easing Covid restrictions on 19 July, ministers have confirmed (12 July 2021).

Why are restrictions being eased?

Health Secretary Sajid Javid said the government's "four tests" had been met:

- Success of the vaccination rollout
- Evidence vaccinations are reducing hospitalisations and deaths
- Infection rates not risking unsustainable pressure on the NHS
- Risks not fundamentally changed by new variants

What guidance will remain in place?

- People should meet others outside where possible
- It is "expected and recommended" that people should wear face coverings (unless exempt) in crowded public settings such as public transport

People working from home will be encouraged to return to the workplace gradually. A review will take place in September to assess how prepared the country is for autumn and winter.

What will change in England on 19 July?

Social distancing

- No limits on how many people can meet
- 1m-plus rule removed (except in some places like hospitals, or before passport control when entering the country)
- Face coverings no longer required by law

Events and gatherings

- Nightclubs can open
- Pubs and restaurants no longer table service only
- No limits on guests at weddings and funerals
- No limits on people attending concerts, theatres or sports events
- No restrictions on communal worship
