Vaccination updates:

Covid booster vaccine rollout: From this week, over 30m people will be offered a third dose of a COVID-19 vaccination, with the Pfizer/BioNTech vaccination recommended. Those eligible for a third 'booster' vaccination include:

- All adults aged 50 years or over
- Older adults living in a residential care home
- Frontline health and social care workers
- All those aged 16 to 49 years with underlying health conditions that put them at higher risk of severe COVID-19
- Adult household contacts of immunosuppressed individuals

The 'booster' vaccination programme is separate to the recent recommendation of third doses for people with severely weakened immune systems. The NHS will contact people directly to let them know when it is their turn to get their booster vaccine.

Children aged 12 to 15 become eligible for a Covid vaccination: Children aged 12 to 15 in England are now being offered one dose of the Pfizer-BioNTech vaccination. It follows advice from the UK's chief medical officers, who say the vaccination jab will help reduce disruption to education.
